

Make Your Own Foam Stamps

Materials:

objects with flat surfaces

craft foam sheets

pen or marker

scissors

glue

ink pads

paper

To make the stamps:

1. Find objects with flat surfaces.
These will be the base of your stamps.

We used the tops of old hairspray cans. You can use whatever you have at home, just make sure the surface is flat.

2. Draw shapes on craft foam sheets.
Cut out the shapes.

3. Glue the foam shapes to the flat side of your objects.

4. Get ink pads and a piece of paper.

5. Start Stamping!

Press the foam shape onto the ink pad. Make sure the foam shape is completely covered with ink before pressing it on the paper.

6. Get Creative!!

You can use the stamps to decorate cards for family and friends!

Have Fun!
